ADVANCE DAHLIA FARM

Catalogue 1928

Five new decoratives are offered for the 1928 season. Two were produced by the Advance Dahlia Farm and three by Mr. Lovell Swisher, Jr. Mr. Swisher's exhibits always attract attention at our best shows as he is an expert grower and has been fortunate in developing outstanding varieties.

The past season in Southern California has been especially favorable for the growth of dahlias. During the early spring there were complaints that dahlias were not doing well but later seasonal conditions have been almost perfect. Late planted varieties are still showing blooms, (December). Under these conditions, seeds and tubers mature readily and are therefore well conditioned when ready for shipment.

We thank our friends for past support and bespeak a continuation of their patronage. If you desire varieties not listed in our catalogue, we shall be glad to try to get them for you. It is our aim to send out tubers and seed of the highest quality and we shall thank any of our patrons for any suggestions that may be of assistance.

PLEASE READ BEFORE ORDERING

Order Early: Orders are reserved strictly in rotation and are forwarded when requested by customer or after frost dangers are over.

Substitution: Please indicate a second choice as we do not substitute without permission.

Terms: Unless otherwise arranged, cash must accompany all orders. Remit by check, Express Money Order or P. O. Order on Los Angeles.

MABEL GOODACRE

The above imperfect cut of Mabel Goodacre appeared in our 1926 catalogue—then a two year old seedling.

NEW INTRODUCTIONS FOR 1928

Mabel Goodacre. Our premier introduction for 1928. Without a doubt one of the finest dahlias yet produced. The color given by some as a beautiful rose pink, (described in the Bulletin of the American Dahlia Society as light mallow purple, delicate and dainty coloring). We have grown twelve inch flowers in the field without fertilizing. The plant, while very vigorous, is low growing with perfect stems and foliage. It is a profuse bloomer and with disbudding will produce enormous flowers. Mr. Rathgeber reports to us that Mabel Goodacre was the finest dahlia in his garden last year. Due to our large field grown stock, we are placing this wonderful dahlia on the market at a reasonable price\$10.00

Helen S. This is another beautiful decorative of our own introduction, a lovely nopal red. The blooms, held on long, strong stems, grow to eight and nine inches without forcing. The plant grows to a height of four or five feet and is of good habits. If forced, the blooms would undoubtedly attain very large size. Six blooms of this variety won first prize for best three year old seedling in the Southern California Dahlia Show, Biltmore Hotel, Los Angeles, 1926.....\$10.00

Chavacano. Truly decorative in form, having an enormous deep bloom of rich apricot color. This dahlia was shown in entry for best collection of six undissemated seedlings at California Dahlia Show, Santa Monica, 1926; at California Dahlia Show, Santa Monica, 1927; and at Southern California Dahlia Show, Biltmore Hotel, Los Angeles, 1927, winning first in all three entries.....Net \$10.00

Scarlet Tanager. This is truly a bird of a dahlia, being an entirely new shade of richest scarlet. One of the greatest assets of this dahlia is its habit of growth, having a heavy, deep green foliage with an ideal stiff stem, holding the bloom well above the foliage. A profuse bloomer of uniformly large blooms. Also three times a prize winner. **Net \$10.00**

The Outpost. A large decorative dahlia of an orange shade with the bloom setting face up on top a stiff wirey stem. This dahlia can easily be grown to produce 12 inch blooms. Winnings, first prize for established 3-year old seedling, Dahlia Show, Santa Monica, 1927; second prize for establishing 3-year old seedling, Southern California Dahlia Society Show, Biltmore Hotel, Los Angeles, also winner of three firsts during the past three years as an undisseminated seedling.....**Net \$10.00**

DECORATIVE DAHLIAS

- Margaret Masson.** One of the most popular varieties in a silver rose pink. Will be found in most collections calling for "best decoratives." Free blooming and good stems.....\$2.00
- Marmion.** An outstanding variety from the Northwest. Color is a pure golden yellow. Florets are long and wavy, thus eliminating coarseness. Fine stems and foliage.....\$7.50
- Mary Murphy.** An immense yellow and apricot flower on splendid stem, a true decorative from the celebrated Amun Ra. Our stock of this variety is limited. Price per tuber.....\$5.00
- *May Blumer.** Somewhat similar to Frances Seaman in character and growth, has with us produced very large and deep blooms. The color is a lilac pink, a very attractive flower.....\$1.00
- Mephistopheles.** A large Marean ruby red variety with light tips to petals. Quite in demand.....\$1.00
- Midnight.** A decorative of the form of Insulinde. For those desiring a dahlia nearest black in color, this variety should answer all requirements. It was grown alongside several highly advertised "black" dahlias and was darker than any of them. Blooms which rarely show an open center are early and late. Stems are almost perfect. Plants will not exceed four feet in height. The dark green foliage resembles huge holly leaves. Received first prize for best three year seedling at the 1924 Los Angeles Show. \$1.00
- *M. H. De Young.** An unusually attractive flower of pure old gold, borne on long stiff stems.....\$4.00
- Millionaire.** A formal shaped lavender.....50c

- Mina Burgle.** One of the standard varieties of deep crimson. Does especially well in cool climates.....**35c**
- Miss Bridgeton.** Deep pink and violet. The large flowers are held on first class stems. Plant is a strong grower and is one that should be in every collection**\$2.00**
- Miss Worn.** Something new to take the place of Futurity, yellow, old rose. slightly burnished with copper and shaded with amber.....**75c**
- Mr. Crowley.** One of the most beautiful dahlias we grow, bright glowing salmon pink, shaded with bright yellow. The bush is a sturdy grower with glossy dark green foliage.....**75c**
- *Mrs. Carl Salbach.** A very popular California variety with long stems, largely used in decorative work, a large flower, with us a bright lilac pink, shading lighter at base of petals, generally described as mauve pink. We have a splendid lot of high colored flowering stock.....**75c**
- Mrs. I De Ver Warner.** The best of the Marean group, a lively pinkish mauve, large and always popular.....**75c**
- Myra Valentine.** This eastern variety has done splendidly for us the past season, a very tall grower, flowers with extra long stems. The color of this variety is a new, golden bronze salmon. The flower is large and a good keeper **\$1.50**
- Nazareno.** One of the best varieties we have received from Mr. Jost. It is a very large decorative, a robust grower on splendid stem, in color a lilac purple, and has been greatly admired by visitors the past summer. It has done as well as any dahlia we ever received from eastern growers, **\$2.50**

- *Royal Gold.** This is a fine cut flower dahlia of medium size, in color an even shade of bright golden yellow.....**50c**
- Sagamore.** Amber gold, shaded with salmon rose and orange buff. Large size good keeping qualities.....**\$2.00**
- San Clemente. D.** The originator says: "It is very difficult to describe the color of San Clemente, as it is a distinct new break in coloring, being a rich brilliant rose color. It runs uniformly large in size from the beginning of the season to the end. The size and color, however, are by no means the best feature of this dahlia as it has a perfect stem, fine foliage, and bears a profusion of bloom in my garden from the first of July to the middle of November. Last and by no means least, it is an excellent keeper." Tube**\$7.50**
- *Shudow's Lavender.** A very hard dahlia to surpass, when well grown, a rich lavender, in the hot weather shaded with white, can be grown to immense size, a great prize winner, very strong grower with perfect stem.....**\$2.00**
- *Snowdrift.** We grow several white dahlias from various continents, but this large white decorative surpasses all. It has great substance and keeping qualities, luxuriant dark green foliage and is rather a dwarf grower. It is one of the most profuse bloomers of large flowers we have yet seen, often three on one stem. We cannot recommend it too highly.....**75c**
- *Somerset.** Salmon and old rose, a healthy and strong grower. A valuable exhibition and prize winning flower.....**\$1.50**
- Souvenir de Gustave Deuzon.** Rich orange red.....**50c**
- *Sun Maid.** This new Californian gave us some beautiful blooms the past season, the blooms are large and compact, very deep, the coloring is a blending of gold and red, somewhat resembling Mrs. E. L. Lindsay **\$5.00**
- *T. A. Leonard.** A wonderfully brilliant rich cerise rose that immediately arrests attention through its uncommon coloring, a large flower on perfect stem, one we highly recommend.....**\$2.00**
- The Title Hunter.** Winner of Silver Cup at Santa Monica for best established seedling. This is a large decorative in a salmon shaded with autumn tints, a seedling from Snowdrift, and with similar heavy green foliage, strong stem and great keeping quality of bloom. It has been greatly admired in our displays. We have a good supply of stock and are making the price low for such a splendid new variety. Price per tuber.....**\$2.00**
- Tommy Atkins.** A most attractive red dahlia with upright stem, described by originator as flaming scarlet, full of metallic lustre. Winner of first prize for best twelve blooms, Los Angeles, 1924.....**\$2.00**
- Trentonian.** The shade of this dahlia is entirely new, being old gold, amber and bronze. Recommended for either garden or exhibition as the size, keeping qualities and stem are the very best.....**\$2.50**
- *Tryphinnie.** This variety, somewhat resembling a water lily, is pale yellow and pink, a large flower on a very strong stem.....**75**
- *Vivian Butler.** A splendid dark bright rich maroon, a strong grower, quite one of the best in color.....**75c**
- *Westwego.** A large compact flower, darker in color than Northwego, which it somewhat resembles, quite a profuse bloomer, classed as fawn and rose by originator, perfectly straight stems.....**\$5.00**

- W. E. Cooper.** Probably our best true pink decorative, a good grower, has good stem and keeping qualities, a large flower of perfect color....\$1.00

Zoe. Pale yellow tipped with white, very pretty.....	35c

PLANTING DAHLIA SEED

We sow our seed in rows in "flats"—boxes 18 inches square, 3 inches deep. We use fine garden soil and plant a quarter of an inch deep, then cut a square of burlap and lay over the box and keep fairly moist so that the surface does not dry out. The burlap is removed when the seeds sprout. When the plants are four or five inches we pot them. We find an ordinary putty-knife an excellent article with which to lift them.

ADVANCE XXX

This is the highest grade of seed we send out, and justly has earned its reputation. This is by far our best seller.

Name of parent on each package as furnished on order sheet.

Twenty-five seeds for \$1.00; One-hundred seeds for \$3.75.

DOUBLE SPECIAL

Seed in this group has given splendid satisfaction the past years, having produced some wonderful seedlings. The U. S. A. seed is still one of the strong leaders in this class.

One-hundred seeds for \$2.00.

SPECIAL SELECTED

This is our regular high grade mixed seed. No seed is gathered from inferior varieties. We have sold a very large quantity of this grade the past three seasons, and it has given splendid satisfaction.

One-hundred seed for \$1.00.

We can also furnish the following:

Mixed Show Dahlias.....100 Seed for \$1.00.

Mixed Collarettes.....100 Seed for \$1.00.

Mixed Pom Pons.....100 Seed for \$1.00.

DAHLIA FLOWERED ZINNIAS

California Grown

This Improved Strain of Zinnias was granted an Award of Merit by the Royal Horticultural Society of England, 1924. This wonderful flower creates a sensation wherever it is grown and it has probably gained popularity more quickly than any other improved garden flower offered in recent years. The large size, fullness of petals, extraordinary color range, and good keeping qualities have all contributed to its popularity. The flowers resemble in appearance the Decorative Dahlia and is called the Dahlia Flowered Zinnia for this reason. When in full bloom they often measure five to six inches in diameter. The Dahlia Flowered Zinnia is strictly a California introduction and since it is so easily grown and is immune from disease at this time we cannot recommend it too highly to our friends.

Exquisite. One of the most pleasing shades. Color a light rose with deeper rose center. Pkt.....	25c
Golden State. Yellow in bud, turning to a rich orange when in full bloom. Pkt.	25c
Crimson Monarch. Bright crimson. The largest of the dahlia-flowered type. Pkt.	25c
Oriole. Immense flowers of orange and gold. Very fine. Pkt.....	25c
Buttercup. Flowers large size, deep creamy yellow. Pkt.....	25c
Canary Bird. A delicate shade of primrose. Does not burn in the sun. Pkt.	25c
Dream. Deep lavender purple, a very beautiful shade. Pkt.....	25c
Old Rose. A very fine flower, of a beautiful rose shade. Ranks among the very best. Pkt.....	25c
Polar Bear. A beautiful pure white flower of the form of a Dahlia. Pkt...	25c
Collection of one of each of the above which makes a beautiful and variegated display	\$2.00

SPECIAL DAHLIA FLOWERED MIXTURE

This mixture contains all of the Zinnia novelties and is a most wonderful collection. It will make an excellent garden show and produce fine flowers for cutting. Pkt.....**25c**

DAHLIA FLOWERED MIXTURE

While this mixture does not contain all of the novelties, its color range is very good and will please you. Pkt.....**15c**

SPECIAL OFFER

As we have an unusually large planting this season, we will send tubers to the value of 25% in excess of amount forwarded on orders of \$3.00 or more. These tubers will be named varieties of our own selection and will be from our field grown stock.

Note. D. stands for Decorative Class; C. Cactus; H. C. Hybrid Cactus; P. Peony type; S. Show; H. S. Hybrid Show; Col. Collarette, and Pom. for Pom Pon.

THE FOLLOWING CULTURAL DIRECTIONS ARE GIVEN IN A CIRCULAR ISSUED BY THE DAHLIA SOCIETY OF SOUTHERN CALIFORNIA

"Dahlias are exceedingly easy to grow, but require an open sunny location for best results. If grown in the shade, they will produce tall, slender plants with few blooms and of poor quality. They do well in any kind of soil, but prefer a rich sandy loam. To produce the finest plants, soil should be prepared several weeks, or months before planting time, by spading in well rotted manure, or other fertilizer.

After all danger of frost is past, again spade up the ground as deep as possible. Have on hand sufficient stakes 1x1½ inches by five feet in length for your needs and drive at least 18 inches in the ground, three to four feet apart each way. Next, dig a hole at each stake from three to six inches deep, according to the nature of the soil (deeper for light soils and shallower for heavy soils). Place the tubers about two inches from the stake in a horizontal position with the eye up and nearest the stake and cover lightly with soil. Never stand the tuber on end."
